

Technical Data Sheet

Blue Painter's Tape

Product Description:

TapeManBlue Painter's Tape is a high-performance, multi-use tape featuring a specially formulated, medium tack adhesive. This gives the tape the grab it needs to adhere to your surface but still allows for clean removal for up to 21 days. When removed, your surface will be damage free and clear of residue. TapeManBlue blue masking tape is also UV resistant, so it is perfect for both indoor and outdoor applications. It is available in ¾", 1", 1 ½", 2" and 3" widths, and all rolls are 60 yards in length.

Product Properties / Characteristics:

Nominal Results

Adhesion to Steel: PSTC I (oz/in)	23.0
Tack Level:	Medium-High
Tensile Strength: PSTC 31 lb/sq in	20
Elongation (%): PSTC 31	9 %
Thickness: PSTC 33	5.4 mils (nominal)

BLUE PAINTER'S TAPE PROPERTIES

Crepe Paper	→	Easy to handle, strong and it will conform to uneven surface areas
Acrylic Adhesive	→	Offers clean removal, reduces labor, and easily sticks to the surface with very little adhesion build over time
Back Saturant	→	Helps prevent the paint to not bleed through and the adhesive will not transfer when it is wet
Backside Treatment	→	The blue painter's tape is easy to use and smoothly unwinds

The values listed above are averages determined by standard production testing procedures. The suitability for use shall be determined by the user for the particular application.
